LIZE MOUTON  
COLLECTION™

## HOSPITALITY OFFERING

LMC is a premium, female-founded South African tea brand, established in 2018 at the foothills of the Cederberg Mountains on a rooibos farm near where founder Lize du Preez (née Mouton) grew up. Rooted in South African heritage, the LMC brand is celebrated for its beautifully packaged Rooibos Tea Collection, that is made with premium locally sourced rooibos, unique to our beautiful country, reflecting the attention to quality ingredients and variety of flavour the range offers.

LMC is a perfect choice for the HORECA sector—hotels, guesthouses, restaurants, and cafés seeking to offer local and foreign guests a truly memorable rooibos experience.

The rooibos used in the LMC Rooibos Collection is sustainably sourced from the Citrusdal valley, the world's exclusive source for rooibos, in partnership with Carmién Tea and the Mouton Foundation. This commitment not only enhances the tea's authenticity but also supports farmworker empowerment and community development.

The LMC range, now featuring the newest addition—a pure, rich Ceylon tea—offers hospitality businesses a way to elevate their beverage selection with a diverse and premium offering. The collection includes a variety of teas available in single envelopes, perfect for display in the LMC tea tray, making them an ideal addition to guest rooms and breakfast areas. Each blend is meticulously crafted by expert tea makers, focusing on quality and transparency, with every tea leaf traceable back to its source. This dedication to excellence creates a luxurious and health-conscious tea experience that today’s guests crave.

Designed for sophisticated settings, LMC teas inspire moments of calm and connection, perfect for guests who value quality and an unforgettable tea experience. LMC invites hospitality businesses to enhance their offerings with an authentic, carefully curated selection that not only refreshes but leaves a lasting impression.
