LIZE MOUTON
COLLECTION™

THE STORY

LMC is an authentic, female-founded South African brand conceived in 2018, at the foothills of the Cederberg Mountains on a rooibos tea farm near where our founder, Lize du Preez, neé Mouton, grew up.

The beautifully packaged LMC Rooibos Tea Collection celebrates her South African roots, her love for tea, and a long family heritage of rooibos farming.

The rooibos used in the LMC Rooibos Collection is sustainably sourced from the Citrusdal valley where Lize grew up. Here, at the foothills of the Cederberg Mountains located in the Western Cape of South Africa, this valley is the gateway to the Rooibos Tea route which is the only region in the world where this miracle plant grows. In partnership with Carmién Tea and Mouton Foundation, LMC is committed to the empowerment of farmworkers and community development, creating a better future for all. LMC represents what Lize lives and loves. Authenticity. Healthy living.

The outdoors. New horizons and challenges. Quality moments with friends and family.

Today's consumer is no longer interested in just a good product but a product that fits seamlessly into their busy lifestyle, a complete package that says, "This is me". A product that's well thought out, and made with the highest quality of ingredients that can be traced back to their origins. Each LMC tea blend is specially selected by Lize and handcrafted with care by an expert team of tea makers.

LMC offers products created for individuals with a busy yet healthy lifestyle, who appreciate premium products that are tasteful, innovative and trendy. For the mother who starts her day with a calming cup of tea before the children wake up, and the young professional sipping her favourite tea while applying makeup and getting energised for the day ahead. For the person who enjoys a tasty cup of tea while driving, working or when getting ready for bed. For the individual searching for a moment of relaxation on a busy day and for those who wish to elevate special moments shared with loved ones.

The LMC Collections are exactly that: created to inspire beautiful moments and conversations that go beyond just a cup of delicious tea.

OUR COMMITMENT

Not only was Rooibos recently registered as a geographic indicator (GI) and awarded Protected Designation of Origin (PDO) status by the European Union (Regulation (EU) No 1151/2012), but it is also the first African food to achieve this status. LMC Rooibos teas are grown on family and long-term producer farms located in this unique area offering our customers full traceability from cup to crop.

In partnership with Carmién Tea and the Mouton Foundation, LMC is committed to the empowerment of farmworkers and community development, creating a better future for all. With LMC's direct link to the farms, we are able to fully commit to job creation and improving the lives of farmworkers. Ongoing projects to support our communities working and living on the various farms range from childcare and education to health and nutrition, training and elderly care.

Our exclusive tea processing and packing facility, Bergendal Rooibos, is 50% owned by farmworkers, who receive the full benefit of additional sales.

Apart from the commitment to social upliftment, LMC is also committed to protecting the earth and ensuring sustainability.

Our producer farms strive to keep their work methods earth-friendly and safe. Additionally LMC increasingly look for ways to ensure it stays on the forefront of sustainable packaging solutions, with all pyramid teabags being compostable.

THE TEA COLLECTION
